Why conduct background checks?

Statistics show that:

Companies have hired a candidate with false details which has led to losses.

HR Managers frequently experience cases of misrepresentation on CVs from prospective job applicants.

High proportion of illegal Immigrants use false documents to gain employment.

Screening does not stop with an employment application. We recommend a proactive approach as continuous Vetting & Screening in-job is required to pick up any changes in lifestyle, affluence, or the acquisition of criminal records Post-Employment. This process is as critical to the welfare and success of a company as is Pre-Employment Screening.
